

PRINTING SOLUTIONS

THE FUTURE OF SUPPLIES MANAGEMENT

Organisations today generate a huge volume of print output, which has resulted in increased expenses and inefficiencies related to day-to-day printing. Keeping an organisation supplied with toner and ink cartridges is a time-consuming and labour-intensive process in many companies. To help customers more efficiently manage their print inventory, HP created the Pay For Print programme—a fully automated supplies reordering service. In addition to simplified supplies replenishment, the programme significantly reduces an organisation's printing costs and provides extensive monitoring features for a better overview of printer performance.

READY FOR AUTOMATION

As an authorised HP Pay For Print partner, we are happy to offer you this service for your business.

PRINTER USAGE

As soon as a cartridge in one of your printers reaches a low capacity, we will receive an automatic toner or ink low notification. And you will receive a replacement delivery within 48 hours.

INVOICING

You will receive a single, consolidated invoice for all delivered supplies. In addition, you can check your consumption and other reports online. The Pay for Print programme is available without a minimum consumption of HP OEM cartridges!

SAVE MONEY AND TIME WITH HP PAY FOR PRINT

HP Pay For Print offers businesses a host of benefits, including:

- Price protection guarantees always the best price for HP OEM supplies for at least one year
- Increased efficiency in ordering printer supplies
- Reduced risk of ordering or stocking errors, which could result in costly printer downtime
- Sophisticated reporting capabilities enable printer fleet optimisation
- Transparency of costs and usage
- Cost savings and improved cash-flow planning
- No print volume commitment during the contract period
- Convenient disposal of empty HP cartridges

Bechtel is your HP Pay for Print authorised partner. We are happy to provide you with more information on the Pay for Print programme so your business can start saving soon.
